

D =0

And

Adj D = 0

Intentionality

This is part of a motivational factor upon which the intentionality of any other coding, ratio, index, or percentage can be judged.

For Example

FC: CF+C

1: 2.5

....reflects the *intentional* use of affect in a raw, unmodulated manner to control the people in their environment.

(Meloy 1992, p. 73)
