

FUTURE-ORIENTED

Synonyms: progressive, dynamic, visionary, broad-minded, liberal

He sees all the possibilities inherent in a situation, mentally rearranging all the parts and visualizing how they might fit together in a variety of scenarios.

Concentrating on what lies ahead, rather than what has already passed or even what is going on right now, he is far more interested in creating options than working with what he has.

Your focus is very much on the future as you look ahead and create a vision of what goals you want to accomplish.

While he tries to make the most of every moment, he also looks ahead and plans for his future needs.

Venturing willingly into unfamiliar projects or relationships with a positive attitude toward the outcome, she is a future-oriented person who creates her own opportunities for advancement.

Your faith in the future is not strong and you tend to agonize over decisions. However, your pride and dignity, along with a desire for approval, encourages you to stay steadfastly committed to whatever you set out to do.

His eyes are firmly focused on the goal. He is not interested in exploring all the difficulties that may arise along the way, he simply views them as a process that he must go through to get to the finish line.

He has a wonderful ability to look ahead and foresee market trends, which allows him to set a course for growth and development for his work group.

Open to just about anything, she is willing to explore whatever new concepts sound interesting, regardless of the possible risks involved.

Driven by a need to explore, he doesn't hesitate to venture into unfamiliar waters. He is progressive and enterprising, looking ahead to the potential outcome of his actions.

People know you as a buoyant, forward-thinking "go-getter."

Although the past has a strong impact on you, are nevertheless future oriented.

Although she doesn't have a lot of talent for analyzing market trends and corporate economic forecasts, she listens well to those who do.

She looks unendingly to the future and plans ways to make things even better than they are today.
