

$$H + (H) + Hd + (Hd)$$

$$\geq 8$$

...a sign of a healthy interest in others, ordinarily.

...but too much interest in others can also reflect, mistrust, a guarded cautiousness and awareness of possibility of harm at the hands of others.

$$4-7$$

...is about as interested in others as most people.

$$\leq 3$$

...not interested in other people.

...has become emotionally isolated.

...withdraws from contact with others.

(Exner 1991, p. 185)
