Subject: RE: [Rorschach_List] Interpreting with High R

Jason,

People who give many Rorschach responses **are people with a lot of ideas they are willing to share with the world.** Consequently, we interpret a high R Rorschach as if we are dealing with **people who show a lot of themselves to others.** While we must be aware of the effect of high R on the Rorschach performance, there is little need to interpret the protocol differently.

Barry
