

Lambda

$\geq .86$

And

$R \leq 13$

....is resisting cooperating with the test instructions.

...is not involved with the testing requirement to the extent that the results would reveal a more complete picture of how they actually are and how they actually are able to behave.

....does not want to take the test, but is not saying why this is so for a variety of reasons.

(Exner 1991, p. 125)
