

Reflections

$$3(2) + r/R \geq .46$$

is concerned with themselves to the exclusion of the awareness of other people want, wish for, and think.

...thinks about themselves often.

...is involved most of the time with their own affairs.

...focus on how other peoples' behavior makes them feel.

...has little to no interest in other peoples' lives.

...the center piece of their lives is their needs, wants, desires, interests, goals necessary for them to have "the good life".

$$3(2) + r/R = .33-.45$$

...has personal concerns that reflect those concerns most other people entertain.

...not overly concerned with themselves. Look upon themselves as no better or worse than others.

$$\dots 3(2) + r/R \leq .32$$

...looks upon their lives in a gloomy, self deprecating and critical manner...

...thinks they are not as good as others.

...looks upon themselves as flawed.

(Exner 1991, 174-175)
