

## RESOURCEFUL

Synonyms: original, inventive, innovative, unique

The danger is, if there isn't enough to improve upon, he may start making changes, just for the sake of change.

His ability to take existing ideas and turn them into something better, from start to finish, makes this a person of vision and foresight.

Eager to apply new methods to various situations, he is willing to tackle almost anything.

He enjoys brainstorming and coming up with innovative new ideas. He doesn't worry too much about deadlines or time constraints, but wants the freedom to think through anything he is about to undertake.

He enjoys learning new information and solving new problems, but doing the same thing repeatedly turns him off.

She has some different ways of seeing things that may not always coincide with the views of others. Putting an interesting twist on some concepts, she doesn't feel tied down to conventional, standard thought.

Always interested in learning, he reaches out for the unique, the atypical.

Good at problem solving, he dislikes doing the same thing repeatedly, but welcomes new problems, especially complicated ones.

He is talented at unraveling the details and getting to the core of a matter, then finding creative solutions.

You are able to plunge into the middle of something brand new, pick up the pieces and begin improvising solutions immediately. By creating a completely new concept, you are able to generate unlimited options and alternatives to improve an existing situation.

Always looking for new and better ways to do things, you ignore the standard, traditional ways. You love taking on a challenge and all

you need is for someone to say 'it can't be done' for you to immediately begin improvising. You never take 'no' for an answer, but are usually able to get what you want, one way or another.

With her quick thinking and creativity, she can devise clever new techniques for promoting the company to prospective clients.

In her zeal to initiate novel plans, she may overlook the fact that some things are fine as they are.

She looks at things in a way most people never even consider. If given the opportunity to take on special projects she could be really innovative. If her boss gives her a chance to prove herself, she could become one of the most imaginative contributors on the team.

Imagination enables you to give a new look to an old idea and brings versatility into your thinking.

Using his considerable resourcefulness, he explores a wide variety of alternatives in order to create a successful effect.

Visualizing all the possible outcomes in a variety of scenarios, he is a problem solver who is happier dealing with potentials than the actual implementing of the solutions he creates. Therefore, his talents are best used in a position that calls for someone of vision, rather than a hands-on, down-and-dirty type of manager.

This is not someone who will stick with the tried and true, standard methods of operating. She is much more comfortable with the freedom to create her own techniques.

Ambition may be dead-ended when this individual fails to recognize possibilities and/or is unable to be resourceful in tight spots.
