| | | | | | Bohm's Rorschach IQ Estimations | | | | | | |
| | | | | | | | | | | | |
| | | | | | Beck's criteria are (from Bohm 1975): | | | | | | |
| | | | | | | | | | | | |
| | | | | | Intelligence Level | | | | | | |
| | | | | | | | | | | | |
| | | | | | W | M | SumC | F+% | A% | Origin | |
| | | | | | | | | | | | |
| | | | | | Very high | >10 | >10 | >4-7 | 90-100 | 10-20 | 30- |
| | | | | | | | | | | | |
| | | | | | High | 7-10 | 7-9 | 1.5-3.5 | 80-100 | 20-35 | 20- |
| | | | | | | | | | | | |
| | | | | | Normal | 4-6 | 4-67 | 0.5-2.5 | 70-80 | 30-55 | 0-2 |
| | | | | | | | | | | | |
| | | | | | Borderline | 3 | 3-4 | 1.5-6 | 60-70 | 50-70 | 0-2 |
| | | | | | | | | | | | |
| | | | | | Mild Retardation | 2 | 1-3 | 0 | 45-60 | 60-80 | 30-4 |
| | | | | | | | | | | | |
| | | | | | Moderate | | | | | | |
| | | | | | Retardation | 0-1 | 0-2 | 5.5-8.5 | 0-45 | 80-100 | 40- |
| | | | | | | | | | | | |
| | | | | | W includes WS; | | | | | | |
| | | | | | | | | | | | |
| | | | | | M should be scored in the classical way. | | | | | | |
| | | | | | | | | | | | |
| | | | | | The W's and M's should be plus form level to count (according to | | | | | | |
| | | | | | | | | | | | |
| | | | | | The F+% is the classical F+% (which includes the CS Fo and Fu; | | | | | | |
| | | | | | scored with CS). | | | | | | |
| | | | | | | | | | | | |
| | | | | | The A% presupposes that content is scored only once per response | | | | | | |
| | | | | | | | | | | | |
